This **Monroe, Washington-based company** is the *creator* of the **WinSched Labor Scheduling tool**. Their **products** are *designed to make businesses more productive and more efficient*. Their **philosophy** is to *create software that will adapt to your way of doing business instead of forcing your business to adapt to the software*. Operating in either a '**stand-alone**' mode or *integrated* with **other software** you may already have, **WinSched products** will *work for you*; both **now** and *in the years to come*. Their **Labor Scheduler product** is an **advanced scheduling tool** for **installers, crews, or any limited resources** *needed for the purpose of scheduling time*. Their **Document Manager product** is an **inventive tool**, which *makes it an effortless task to organize your electronic documents* such as **Blueprints, Tile or Hardwood Layouts, Contracts or Measure Requests**. **Document Manager** is a **companion** to their **Labor Scheduler product**, which *empowers its users to locate documents for a job in a couple clicks*. Their **AwayToWork service** *keeps its users connected to office data while away from the office*. Their **cutter product** is a **convenient resource** for those *using cutting machines to cut flooring material*. *Connect the cutter program to the 'Cut' data from your estimating software*. The **Cutter program** *uses FSDE (Flooring Software Data Exchange) in order to provide a standard interface to your estimating software*. *Serving the flooring industry since 1994*, this **company's portfolio of products** have *proven themselves in the workplace and are appreciated by satisfied customers operating in many industries; including Security, Satellite TV Installers & Construction (a component of which is the floor covering industry)*. They *offer seamless integrations for a variety of software packages you may already have*, such as **QuickBooks, QFloors, CDMS, FloorPro, FloorEstimator, RFMS** and more. *Request a demo today or call them at 866-558-4880*.
