This **East Hartford, Connecticut-based supplier** has more than 40 years of extensive field knowledge and innovation in seamless commercial / industrial flooring systems and polymer components—epoxies, urethanes and methyl methacrylates (MMA) plus premium colored quartz aggregates. In fact, this supplier is the principal supplier of colored quartz aggregate to the seamless flooring industry. Customers find that the experts at Dur-A-Flex know the product, its application to specific industries and how to overcome issues that can come up on the job—helping to get the job done right and on time. There is a floor system to suit even the most demanding flooring applications—with a complete range of Dur-A-Flex products including primers & sealers, membrane & crack fillers, resurfacers and performance topcoats – this supplier's customers are certain to get a floor that's right for their needs and one likely to provide a healthy return on your investment. They test every batch of resin and hardener during production and they track manufacturing and orders with barcodes to ensure accuracy and quality. Those partnering with Dur-A-Flex get what they need when they need it from a team of qualified people who know the business and a proven line of highly versatile products. Specify, order, inventory and install flooring systems and components effortlessly thanks to a capable and skilled, technical support team.
