Duradek Ultra Arctic Quartz

Duradek Introduces the New Ultra Arctic Quartz Vinyl Decking

Introducing Duradek's Ultra Arctic Quartz and reintroducing 'QUARTZ' as a brand new line of their Ultra vinyl membranes. Arctic is a striking, dynamic texture of multi-tonal off-white and greys; for a unique, inspiring new option likely to fill market demands for the popular grey exterior color schemes.

A lighter base offers reflective qualities. The speckle pattern of Arctic adds depth, style and an effective background for the purpose of camouflaging any light organic sediment, which might accumulate on an exposed deck surface.

A cool, classic look, Arctic is an ideal surface for designing exceptional outdoor living spaces. Arctic offers peace of mind and complete waterproof protection for the deck surface. As a roofing membrane, Arctic offers comforting assurances that the dry surfaces beneath the deck stay dry; such as lower level open patios and other enclosed, habitable spaces.

After the success of 'Legacy Desert Quartz', there was a pressing need for a wider color selection in an exceptional pattern. With the addition of Arctic, the 'Quartz' pattern was designated its own unique line.

Arctic Quartz is a cooler option than Desert Quartz introduced with the Legacy Line of naturally inspired textures in 2016. Receiving rave reviews, Desert Quartz (aka: Legacy Desert Quartz) was the source of inspiration for a new designer line of vinyl deck membranes. More [HERE](#).
