Your Gateway to the Floor Covering Industry

## The Inside Track

Are you preparing for the reopening? Or have you already reopened? Introducing the first line of defense for flooring and furniture:

50 mil ceramic rollable vinyl flooring in white, grey, and black is available with an anti-microbial satin or high gloss coating. As cautious organizations pursue the safest ways to exhibit house partners as resources in exhibiting and reopening, solid colored anti-microbial flooring in 10' wide x 61' long rolls are recommended.

What else is available? An increased demand for custom printed signage and floor mats, is likely to direct your attention to the CPT (custom printed textured) vinyl, in a 35 mil lower profile anti-microbial mat with anti-slip or adhesive backing. Bonus: "Walk or Wall" decals presents an intriguing, compelling, cost-effective alternative for flooring and wall messaging available in different sizes and shapes customizable with your designs.
