A decade to be remembered

1920-1929 was indeed a memorable decade. There are some decades within a century that stand out apart from others.

The 1920's a.k.a. the roaring 20's began with the era of [prohibition](#). It opened up doors to profitable black market activity.

There was a roar of push back in response to this law. Demand for alcohol, which is a vice product, continued to flourish; even more so despite the government's efforts to enforce this federal law. Unregulated, untaxed black market products weren't always safe.

It was painfully obvious and a bit unrealistic to believe consumer demand for alcohol can be abolished with a federal law. Prohibition law was repealed in the 1930's; first with beer followed by the others.

As the decade neared its end, the stock market [crash](#) triggered the great depression. Many people lost their life savings.

2020-2029 will likely be a memorable decade. The decade began with the virus (Covid 19). The weight of this virus will be discussed in the history books for decades in the future. A renewed focus on flooring, cleaning methods and materials are inevitable, as this virus spreads through the air. Best practices at keeping flooring clean is likely to take center stage!
