

Introducing Rock Tred

Members (and Visitors):

This Press Release is about Rock Tred Polymer Coating Solutions. Based out of Waukegan, Illinois (USA), the company seeks to serve a few proud flooring professionals who care about providing quality long term solutions for their customers.

Rock Tread offers quality products and innovative services empowering customers to profit in today's competitive market. Since 1939, their formulations for epoxies, urethanes, elastometrics, and polyaspartics have helped contractors deliver solutions for industrial, commercial and residential projects.

Rock Tred offers patented products and unique product packaging, which save customers time and money. Rock Tred offers state of the art automated manufacturing working capable of producing customer orders all year around the clock.

To assist with GREEN and LEED project design, Rock Tred is a proud member of the USGBC (United States Green Building Council), according to a flyer the company mailed to Floor Covering Media earlier this year. Learn more about the products and services provided by Rock Tred. More at RockTred.com.

Sincerely,
Elizabeth Yokel
